

## Built-In Grill Island Dimensions

**WARNING:** See clearance to combustible materials, when designing and constructing a built-in island. Built-In islands must be built to the specifications listed below.

The owner and/or builder are responsible for consulting local, county and state building codes for securing any necessary building permits before construction. **NOTE:** Construction codes vary from locality to locality.

| VGB0001 PRO BUILT-IN |                         |            |
|----------------------|-------------------------|------------|
| DIMENSION            |                         | TOLERANCE  |
| A                    | 30 ¼"                   | ± 1/8"     |
| B                    | 16 ¾"                   | ± 1/8"     |
| C                    | 24 ½"                   | ± 1/8"     |
| D                    | 8 ½"                    | + 1/8" -0" |
| E                    | 6 ½"                    | + 1/8" -0" |
| F                    | 3" to 9'                |            |
| G                    | 3 ½" MIN                |            |
| H                    | 12" MIN                 |            |
| J                    | 22"                     | ±1"        |
| K                    | Standard Cabinet Height |            |

| VGB0001 PRO BUILT-IN |                         |              |
|----------------------|-------------------------|--------------|
| DIMENSION            |                         | TOLERANCE    |
| A                    | 76.9 cm                 | ± .30cm      |
| B                    | 42.6 cm                 | ± .30cm      |
| C                    | 62.9 cm                 | ± .30cm      |
| D                    | 21.6 cm                 | +.30cm -0cm  |
| E                    | 16.5 cm                 | +.30 cm -0cm |
| F                    | 7.7 cm to 2.74 m        |              |
| G                    | 8.9 cm                  |              |
| H                    | 30.5 cm                 |              |
| J                    | 55.9 cm                 | ±2.54cm      |
| K                    | Standard Cabinet Height |              |

**NOTE:** Dimensions are to the finished surfaces. Grill cavity surfaces are to be plumb and level to ensure a proper fit.

### ITC Control Location

110/120v\* AC supply required within 10 ft. of the ITC.

**NOTE:** The location of the ITC is for illustration purposes only. The grill is equipped with 10 feet of cable, allowing it to be mounted in a variety of locations.

\*European 230V

Controller cable way is to maintain dimensions D and E throughout its entire path. The controller cable way may be located either through the back of the island's cavity, or in either side of the cavity as depicted below.
